

Research Culture Change, One Grant at a Time

The Hypothesis : #RDM + #FAIR + #OpenScience = Competitive Grants
(& nudging sceptics to adopt them)

The Challenge is the Gap ...

... & the Opportunity is ...

The Mechanics to Winning Grants with Open Science ...

#OpenScienceClinique

**IMPACT ...
on Grant Evaluations:**

“ creative measures will be taken to guarantee the openness, reproducibility, dissemination and impact of project outputs
Review Panel : Life Sciences

“ Great importance is given to open science approach
Review Panel : Engineering

“ Making data available to other researchers will enhance dissemination
Review Panel : Environment

**IMPACT ...
on Researchers**

“ Reproducibility, code and data sharing are definitely things to aim for. The Clinique hugely strengthened my application.

“ The Clinique ... allowed me to upgrade the Impact of the proposal & utilize Open Science

“ Why would you not (use Open Science) ?
